To celebrate the 8th edition of Offprint Paris, from 9 – 12 November 2017, 140 independent publishers in art, photography and design, from 19 different countries, come together at the Beaux-Arts in Paris.

A program of conferences will be organized, focusing on this year's theme: technology.

Created in 2010, Offprint is LUMA Foundation's platform supporting socially engaged editors experimenting new formats and contents. All year-round, Offprint gathers and presents a group of publishers and lesser-known publications, circulating mostly outside the traditional commercial networks: editors *sticto sensu*, as well as art schools, magazines, self-published books, artists collectives, research reviews, zines...

Each year, Offprint organizes a series of events to support publishers: two fairs (Offprint Paris and Offprint London), several travelling libraries (Milan, Amsterdam), a permanent library at the Parc des Ateliers, in Arles, and curated bookshops for private and public institutions.

Supporting artists and the production of ground-breaking cultural projects, LUMA Arles is pleased to produce Offprint. LUMA Arles and Offprint both aim at supporting independent publishing and all fields of contemporary creation.

## ABOUT THE LUMA FOUNDATION AND LUMA ARLES

In 2004, Maja Hoffmann created the LUMA Foundation in Switzerland to support the activities of artists, independent pioneers, and organizations working in the visual arts, photography, publishing, documentary film making, and multimedia. Envisioned as a production tool for Hoffmann's multi-faceted ventures, the LUMA Foundation produces, supports, and enables challenging art projects committed to an expansive understanding of environmental issues, human rights, education, and culture.

In 2013, Hoffmann launched LUMA Arles to plan, develop, and manage the Parc des Ateliers, an expansive former industrial site located in Arles, France. Situated adjacent to the city's UNESCO World Heritage sites, the Parc des Ateliers serves as the major programmatic and cultural center for LUMA Foundation's diverse activities. LUMA Arles is an experimental contemporary art center where artists, researchers, and creators from diverse fields collaborate on multidisciplinary exhibitions and projects. It includes a resource center designed by architect Frank Gehry, various industrial buildings undergoing rehabilitation by Selldorf Architects, and a public park designed by landscape architect Bas Smets.

Throughout the rehabilitation and expansion of the Parc des Ateliers, Hoffmann has worked closely with a Core Group of artistic consultants (Tom Eccles, Liam Gillick, Hans Ulrich Obrist, Philippe Parreno, and Beatrix Ruf), who present a program that fills the site's completed venues—the Grande Halle, Les Forges, and the Mécanique Générale— on a rotating basis.
